

Mentor Connect Mid-Cycle Check In

The mid-point of a mentoring cycle is a good time to take stock of your progress, congratulate yourselves on your successes and consider any goals that have proven tricky to attain. Do any of your goals need to be adjusted? Is a course-correction needed to get back on track?

What Have We Accomplished So Far?

Have we made the progress we hoped for at this point?	
Has anything come up that interfered with or delayed our success?	
Are our goals still S.M.A.R.T. (Specific, Measurable, Attainable, Realistic, Timely)?	
Is there anything else we can do without losing track of what we set out to accomplish?
